WORK EXPERIENCE

Software Developer II Signzy Technologies

09/2019 – Present

Bangalore, India

Achievements/Tasks

- Currently working on a video solution for Video KYC and Video conferencing. Includes a priority queue implementation with clustering to handle loads, also including batch compression and scheduling along with a high availability setup.
- Lead the development of an inhouse customizable CRM product for banks with multiple grants and multilevel hierarchy. It also includes reporting, monitoring, and triggering events.

Software Developer Signzy Technologies

09/2018 – 09/2019

Bangalore, India

Achievements/Tasks

- Lead a team for an end to end delivery of onboarding solution for one of India's leading bank. Built on flutter, backend on Node, and frontend using Vue with dockerized containers.
- Worked on certain modules in a project for one of India's leading banks, majorly in the backend, built on top of Node.
- Had a crucial role in developing a complex application creator.

Junior Developer Signzy Technologies

03/2018 – 09/2018

Bangalore, India

Achievements/Tasks

- Was solely responsible for the delivery of a current account mobile application for one of the India's Leading bank. Strictly following MVVM architecture.
- Worked with various integrations like, biometrics, aadhaar services, and data processing on device.
